

Professional casting, connected.

Talent Systems is the company behind the solutions professional casting runs on. We're building what the next generation of casting needs: smarter platforms, stronger communities and professional spaces supporting the full arc of casting, from first brief to final decision.

Our Solutions

Full-service casting platform, connecting professional talent with commercial, film, and television opportunities.

A comprehensive suite of casting workflow applications used by every major studio and network.

The gold standard for connecting performers with leading agents and casting professionals since 1927.

The talent management platform built around how agencies actually work.

Our newest casting app connecting India's talent to professional productions.

Powering unscripted and reality casting for productions worldwide.

A professional casting platform for commercial, film, TV, and digital projects across select North American markets.

Where people who work in media production go to hire and get hired.

Our Studios

SPOTLIGHT STUDIOS

London's premier destination for casting, self-tapes, and rehearsals, in the heart of Covent Garden.

FORMOSA CASTING STUDIO

A dedicated home for auditions, callbacks, podcasts, and creative connection in Los Angeles.

We support the largest footprint in global casting.

From established industry hubs to fast-growing creative markets, Talent Systems supports casting around the world.
